

## From the Principal's Desk

As we reflect upon the energy and enthusiasm that filled our school grounds this past month, I am overwhelmed with pride. We dedicate this month to celebrating the immense feeling of sportsmanship that defined our activities, focusing on the core values of discipline, commitment, and team spirit. These aren't just words; they are the pillars upon which success is built. It is with much pride that I announce the resounding success of "Phoenix: Rise of Champions." This event has truly proven to be another feather in our school's cap!

Our students were given a good platform to highlight their talent, and they truly performed excellently. By giving their absolute best, they have returned not only with well-deserved certificates, medals, and trophies. The journey of a champion is not just about the win; it is about the dedication shown in every practice, the respect given to every opponent, and the resilience demonstrated after every challenge. The discipline and commitment you have shown are qualities that will serve you well in every area of your academic and personal life. Let us carry this spirit forward into the next month, approaching every task—whether it's an assignment, an exam, or a new school project—with the same passion and team spirit we witnessed on the sports field.

### **Quote of the month**

***“Intelligence is the ability to adapt to change”***

“Intelligence is the ability to adapt to change” means that being truly smart is not just knowing facts – its about how well you adjust when things around you change. A person who can stay flexible, learn new things, and handle new situations confidently is showing real intelligence.

## ACTIVITIES

### Diamond Shape

**Mont I:** Students made colorful fish using diamond shaped cutouts and also brought diamond shaped food items to relate learning with fun. This simple activity helped them recognize the diamond shape while building fine motor skills and imagination. The little ones proudly displayed their colourful diamond shaped fish with big smiles.

**Mont II:** Little learners created colourful kites using the diamond shape, making shape recognition fun and engaging. As they colored and decorated their kites, children strengthened their fine motor skills and enjoyed a joyful hands-on learning experience. Their bright kites and brighter smiles made the activity truly delightful.

**Mont III:** Learners learned about the diamond (rhombus) shape and then drew objects that use that shape — such as earrings, pinwheels, kites and the diamond itself. This activity helped them recognize shapes in everyday items, practice fine motor skills through drawing and coloring, and express their own creativity.

### World Public Transport Day

To celebrate World Transport Day, our young learners engaged in an enjoyable and meaningful sorting activity. Children brought different means of transport and were guided to place them under the categories - land, Water, and Air.

Through these hands on task, students learned to identify various vehicles and understand how they move in.

# ACTIVITIES

## Children's Day

**Ryan International School, Dombivli** came alive with excitement and enthusiasm during its vibrant **Children's Day Celebration!** The morning began with a special assembly dedicated to honoring the joy, talent, and innocence of our young *Ryanites*. The program beautifully balanced meaning and merriment, featuring soulful prayers, uplifting songs, a humorous *Hasya Kavi Sammelan*, an engaging teacher skit, and a lively musical performance.

Students also expressed their pride in the nation by singing the National Anthem with great reverence. The festivities continued with a cheerful cake-cutting ceremony, adding sweetness to the celebration. The day then unfolded into a series of creative and fun-filled competitions, including Fancy Dress, Cartoon Character Puppet Show, Storytelling, and energetic Sports events.

It was a day devoted wholeheartedly to our children—filled with joy, creativity, and unforgettable moments that celebrated their spirit, imagination, and endless potential.

## Pink Day

**Mont I:** Our little ones looked bright in pink outfits as they made lovely handprint flamingos. They even brought pink food items to match the theme, which made Pink Day more fun and colourful. The activity encouraged creativity, hands on learning, and joyful participation.

**Mont II:** Little ones did pink colour paper tearing activity on the given picture of cupcake.

**Mont III:** Students made a beautiful bookmark. They tore pink colour paper into

## ACTIVITIES

small pieces and carefully pasted them on the bookmark. The activity helped them improve their creativity and fine motor skills while enjoying the craft work.

### National Milk Day

**Mont I:** To mark **National Milk Day**, students created a simple **glass of milk craft** using glass-shaped paper cutouts and cotton. They enjoyed sticking cotton onto the cutouts to represent milk, making the activity both fun and educational while highlighting the importance of healthy habits.

**Mont II & III:** For Mont II and III, our little learners narrated the story of how milk travels from the farm to our homes. They spoke about how cows are cared for, how milk is collected, packed, and delivered. The session was simple, fun, and helped them understand the importance of milk in their daily lives.

## SUBJECT ENRICHMENT

### Mont I English – Letter Y

The children learned the letter Y through a fun, hands-on activity. They were given yarn pieces to paste inside the outside of the letter Y. As they arranged the colorful yarn, they strengthened their fine motor skills. The activity helped them recognize the shape and sound of the letter Y. Students enjoyed creating their own “Y for Yarn craft with excitement. They proudly displayed their completed letter Y at the end of the session.

## SUBJECT ENRICHMENT

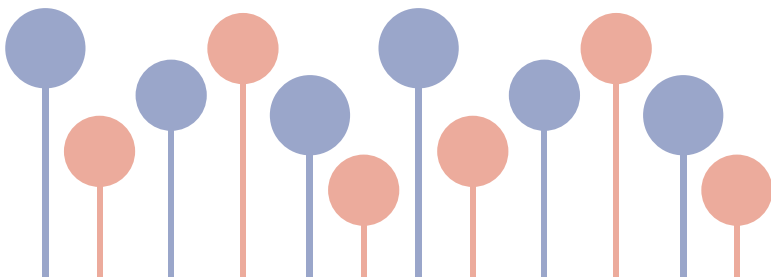

### Math's – Number 6

The children practiced number recognition through a fun number 6 activity. They used their fingers to dab paint inside the circles along the number's outline. This hands-on activity helped them understand the shape and formation of number 6. As they pressed each dot carefully, their fine motor and hand-eye coordination improved. The bright paint made the learning process engaging and enjoyable for them. Children proudly completed their colorful number 6 pattern with excitement.

### English - Mont II

The children creatively form the letters H, A, E, and L using fun body movements. Working in pairs, they show teamwork, balance, and coordination in each pose. Their expressions reflect joy as they learn through playful, hands-on activity. Such Kinesthetic learning helps kids understand concepts with excitement and confidence. The Final smile shows how proud they feel after completing the activity.

## PARENT'S CORNER

As Leela Karthikraj, mother of Kovendhan Karthikraj in Montessori II, I wanted to share our deep appreciation for Ryan International School, Dombivli. Having moved from Tamil Nadu to Mumbai three years ago, we chose this school after an extensive search, attracted by its unique location away from city pollution and its reputation for excellent academics and activities—which ultimately led us to move to Dombivli. Though we were initially skeptical about the new environment, we have been thrilled to witness Kovendhan's remarkable progress: his communication in both \*English and Hindi\* has improved dramatically, allowing him to express himself clearly, and his overall discipline, from completing homework independently to choosing healthy food, reflects the school's positive influence. It's particularly heartwarming to see his social confidence grow; the boy who hesitated to speak with peers is now happily making friends with the whole class, and his love for rhymes and coloring is blossoming. We extend our sincerest thanks to the entire school for making such a positive impact on his academic foundation and overall development, and a special thank you to his class teacher, \*Mittal Ma'am\*, whose genuine interest in his growth and outstanding way of handling the class has been a source of great comfort and support, always making her easily reachable for us.
