June 2026
Pre-primary

From the Principal's Desk

The month of June was filled with happiness, creativity, and meaningful learning experiences for our young learners. As children continued their journey into the new academic year, they enthusiastically participated in a variety of activities designed to nurture their social, emotional, physical, and creative development. Every day brought new opportunities for exploration, expression, and joyful learning.

This month, our little Ryanites celebrated special occasions that encouraged them to appreciate family values, develop creativity, and understand the importance of healthy habits. Through carefully planned activities, children were encouraged to express their feelings, communicate their ideas, and participate confidently in classroom experiences. These experiences helped them develop a positive attitude toward learning while strengthening their self-confidence and independence.

One of the major highlights of the month was the celebration of Father's Day, where children joyfully expressed their love and appreciation for their fathers through creative activities. Such celebrations play an important role in helping children understand the significance of family relationships and gratitude. The excitement and enthusiasm displayed by the children reflected the strong emotional connections they share with their families.

The month also included the celebration of International Music Day, which introduced children to the wonderful world of music and artistic expression. Through drawing and creative activities based on musical instruments, children explored different forms of expression while enhancing their imagination and observation skills.

In observance of International Yoga Day, children participated in breathing exercises using colourful props such as bubbles, feathers, and pinwheels. These activities helped them understand the importance of calmness, concentration, and maintaining a healthy body and mind. Introducing mindfulness practices at an early age encourages emotional well-being and helps children develop healthy habits for life.

Aligned with our monthly vision of Environment, children were also encouraged to appreciate nature and understand the importance of caring for their surroundings.

Through classroom discussions and interactions, they learned simple ways to protect the environment and become responsible citizens.

Overall, June was a month filled with laughter, learning, creativity, and joyful experiences. We are proud of the enthusiasm shown by our little learners and look forward to many more exciting opportunities for growth and development in the coming months.

Quote of the month

"Joy shines brightest when little hearts learn, laugh, and grow together."

★ ★ ★ ★ ★

VISION OF THE MONTH

Joy

A wonderful emotion that plays a vital role in a child's overall growth and development. Joy creates a positive learning environment where children feel comfortable, confident, and motivated to participate in classroom activities. It helps children build strong relationships, develop self-confidence, and approach new experiences with enthusiasm and curiosity.

Throughout the month, children experienced joy through a variety of engaging activities that encouraged creativity, movement, music, and self-expression. They actively participated in celebrations, competitions, and classroom interactions that allowed them to explore their talents and share happy moments with their friends and teachers. These experiences helped create a warm and nurturing environment where every child felt valued and appreciated.

Teachers continuously encouraged children to express happiness through kindness, cooperation, and gratitude. Children learned that joy can be found not only in achievements but also in sharing, helping others, and appreciating the people around them. Through stories, songs, games, and discussions, they gradually developed an understanding of positive emotions and healthy social interactions.

By nurturing the value of joy at an early age, children are developing emotional resilience, confidence, and a lifelong love for learning. Joyful experiences help create lasting memories and contribute significantly to the social and emotional well-being of young learners.

Environment

The vision for the month focused on the environment, encouraging children to develop awareness, appreciation, and responsibility towards the world around them. Introducing environmental concepts during the early years helps children understand the importance of nature and their role in protecting it.

Throughout the month, teachers introduced simple discussions about plants, trees, animals, water, and cleanliness. Children learned that nature provides us with many valuable resources and that it is our responsibility to take care of them. These conversations helped children develop curiosity and respect for the environment.

Children were encouraged to observe natural elements around them and appreciate the beauty of flowers, trees, birds, and greenery. Teachers also emphasized simple habits such as keeping the classroom clean, using resources responsibly, and showing kindness towards living things. These practical lessons helped children understand that small actions can make a positive difference.

Developing environmental awareness from an early age helps children become thoughtful, responsible, and caring individuals. Through meaningful experiences and discussions, children are gradually building habits that will encourage them to become environmentally conscious citizens in the future.

ACADEMIC ACTIVITIES

Exploring the Alphabet – Letter Aa Recognition Through Flash Cards – Mont I

As part of our English learning activities, the Mont I students enthusiastically participated in an engaging Letter Aa Recognition Activity using colorful flash cards. Each child was invited individually to observe and interact with the Letter Aa flash card, helping them build familiarity with both the uppercase A and lowercase a in a fun and interactive way.

The activity encouraged students to carefully observe the illustrations associated with the letter, including Apple and Annie Ant. Through guided discussions and picture recognition, children were able to connect the letter sound with familiar objects and characters. Students also enthusiastically attempted to repeat the phrase, “Annie Ant is eating an apple,” which helped strengthen their listening, speaking, and language skills.

This hands-on learning experience supported early literacy development by enhancing letter recognition, vocabulary building, and phonemic awareness. The activity also boosted children's confidence as they participated individually and demonstrated their understanding of the letter and its associated words.

Understanding Sizes – Exploring the Concept of Big and Small - Mont I

The Mont I students enthusiastically participated in an interactive Maths activity on the concept of Big and Small. Through engaging picture-based learning, children were introduced to the idea of size comparison in a fun and meaningful way.

Each child was provided with a picture displaying

ACADEMIC ACTIVITIES

either a big or a small object. The students carefully observed their pictures, identified the object shown, and confidently expressed whether it was big or small. They also named the object and shared their responses with their classmates, making the activity both interactive and enjoyable.

This hands-on learning experience encouraged active participation and helped children develop a clear understanding of size differences through observation and discussion. By connecting visual learning with verbal expression, students strengthened their communication skills while building foundational mathematical concepts.

Learning Good Manners – Circle Time on the 5 Magical Words - Mont I

The Mont I students actively participated in an engaging and interactive Circle Time Activity focused on the 5 Magical Words. Through role-play and real-life scenarios, children learned the importance of using polite and respectful language in their everyday interactions.

Students were called in pairs and encouraged to perform simple role-play situations demonstrating the appropriate use of each magical word. Different pairs confidently enacted situations using phrases such as “Thank You” and “You’re Welcome,” “Excuse Me,” “Sorry” and “It’s Okay,” “Can You Please Give Me...?” and “May I...?”. As they acted out each scenario, children practiced speaking the magical words and using them in meaningful contexts.

The activity provided a wonderful opportunity for students to develop social skills, learn good manners, and understand the value of kindness and respect. Through active participation and peer interaction, children gained confidence in expressing themselves politely while building positive communication habits.

ACADEMIC ACTIVITIES

Discovering Patterns Through Playful Learning Mont II

As part of their Mathematics learning journey, the Mont II students enthusiastically participated in a hands-on activity on Patterns. Using colourful counters and shape cut-outs, children carefully observed, identified, and continued simple repeating patterns. They explored sequences by arranging objects according to colour and shape, helping them recognize order and repetition in a fun and engaging way.

The activity encouraged students to think logically, make predictions, and identify what comes next in a sequence. Through active participation and exploration, children strengthened their understanding of patterns while developing important early mathematical skills.

This interactive learning experience transformed mathematics into an enjoyable adventure, helping young learners discover patterns all around them while fostering curiosity, creativity, and critical thinking.

Fun with Numbers – Number Ordering Activity - Mont III

Number Ordering with Balloons

As part of their Mathematics learning, the Mont I students participated in an exciting Number Ordering Activity using colourful balloons. Each child was given a balloon displaying a number and was encouraged to identify the number and work together with their classmates to arrange themselves in the correct numerical sequence.

The activity transformed number learning into a fun and interactive experience, allowing children to actively engage in identifying, comparing, and ordering numbers.

Students enthusiastically collaborated with one another while holding their numbered balloons, helping them develop a clear understanding of number sequence in an enjoyable and memorable way. The Number Ordering Activity made learning numbers enjoyable and meaningful, helping young learners strengthen their foundational mathematical skills through active participation and collaborative learning.

ACADEMIC ACTIVITIES

Building Reading Skills Through CVC Word Formation - Mont III

The Mont III students enthusiastically participated in a hands-on CVC (Consonant-Vowel-Consonant) Word Formation Activity using letter tiles. Children carefully observed the letters, identified their sounds, and arranged them to form simple three-letter words such as cat, bat, bed, dog, and sun. Through active participation and collaborative learning, students explored how individual letter sounds blend together to create meaningful words.

The activity encouraged children to think critically, recognize letter patterns, and strengthen their early reading skills. As they manipulated the letter tiles and formed words independently, students developed confidence in phonics and word recognition while enjoying a fun and interactive learning experience.

Colourful Learning – Exploring Colours with Balloons - Mont III

As part of their EVS learning, the Mont III students participated in a vibrant and engaging Colours Activity using colourful balloons.

The children enthusiastically observed, identified, and named different colours such as red, yellow, green, and white while interacting with the balloons in a fun-filled environment.

The activity encouraged students to recognize colours through hands-on learning and active participation. Children confidently held up their balloons, identified the colours, and shared their responses with their peers. This interactive experience made colour recognition enjoyable while promoting communication and social interaction among the students.

Innovation Academy – Exploring Shapes Through Creative Construction Mont III

As part of the Innovation Academy program, Mont III students enthusiastically participated in a hands-on shape construction activity using colourful ice-cream sticks. Children carefully

ACADEMIC ACTIVITIES

arranged and joined the sticks to create different shapes, with a special focus on constructing a square. Through this engaging activity, students explored the properties of shapes while enhancing their creativity and problem-solving abilities.

The activity encouraged children to observe, plan, and build independently, helping them understand how shapes are formed using sides and corners. Students proudly displayed their completed creations and shared their learning with their peers, making the session both interactive and enjoyable.The Innovation Academy session provided a wonderful opportunity for students to learn through exploration and creativity, transforming simple materials into meaningful learning experiences while fostering curiosity, confidence, and innovation.

ACTIVITIES

Telangana Formation Day Celebration

Telangana Formation Day was celebrated with great pride and enthusiasm by the educators and school management to commemorate the formation of the state of Telangana. The celebration began with a ceremonial flag hoisting, where the school community gathered to pay respect and honor the rich heritage, culture, and achievements of the state. The atmosphere was filled with a sense of unity and pride as participants reflected on the significance of this important occasion.

Following the flag hoisting, educators addressed the gathering and spoke about the history and importance of Telangana Formation Day. They highlighted the journey of the state, its cultural diversity, traditions, and contributions to the nation's development. The informative session helped participants gain a

ACTIVITIES

deeper understanding of Telangana's identity and the values associated with its formation.

To make the celebration more engaging and interactive, a quiz competition based on Telangana's history, culture, geography, and important milestones was conducted. The participants enthusiastically took part in the quiz, showcasing their knowledge and learning new facts about the state. The celebration served as an educational and inspiring experience, fostering awareness, appreciation, and a sense of belonging towards Telangana among all attendees.

World Environment Day Celebration

World Environment Day was observed with great enthusiasm and a strong commitment towards environmental conservation. To mark the occasion, all educators actively participated in a tree-planting initiative, demonstrating their dedication to creating a greener and healthier environment. Each educator brought a plant and took part in planting activities within the school premises, contributing to the beautification and sustainability of the campus.

The significance of protecting the environment and preserving natural resources was discussed during the celebration. Educators reflected on the importance of trees in maintaining ecological balance, improving air quality, conserving biodiversity, and ensuring a healthier future for generations to come. The activity served as a reminder of the collective responsibility each individual holds in safeguarding the environment.

The plantation drive not only enhanced the greenery of the school surroundings but also promoted environmental awareness and sustainable practices.

ACTIVITIES

Through this meaningful initiative, educators reinforced the message that even small actions can make a significant difference in protecting nature. The celebration successfully inspired a sense of responsibility, care, and commitment towards environmental conservation and sustainable living.

Father's Day Celebration – Make a Tie Competition

Father's Day was celebrated with immense joy, excitement, and enthusiasm through the Make a Tie Competition, providing children with a wonderful opportunity to express their love and appreciation for their fathers. The celebration began with an interactive discussion where teachers encouraged children to talk about their fathers, share happy memories, and describe the special moments they enjoy together. The little learners eagerly participated in the conversation, speaking about playing games, going on outings, reading stories, and spending quality time with their dads. These meaningful discussions helped children understand the importance of Father's Day and the valuable role fathers play in their lives as protectors, guides, and loving companions.

Following the discussion, children enthusiastically took part in decorating paper ties using a variety of art materials such as crayons, sketch pens, stickers, patterns, and creative drawings. Each child designed their tie uniquely, reflecting their imagination, artistic abilities, and heartfelt emotions. The classroom was filled with excitement as the children carefully selected colours and decorations to create special gifts for their fathers. The activity not only encouraged self-expression and creativity but also enhanced fine motor skills, hand-eye coordination, focus, and confidence. Through this enjoyable competition, children developed a deeper understanding of gratitude and affection while creating beautiful keepsakes that symbolized their love and appreciation for their fathers.

ACTIVITIES

International Music Day – Drawing of any One Fun Toy Instrument

International Music Day was celebrated through a special assembly conducted to help children understand the importance of music in our daily lives. The assembly began with an introduction to the significance of International Music Day, where teachers spoke about how music brings happiness, relaxation, and positivity to people around the world. Children were introduced to different types of musical instruments and learned how music can be used to express feelings, emotions, and creativity.

During the assembly, students listened attentively as teachers discussed the role of music in celebrations, learning, and entertainment. The session highlighted how music helps improve concentration, boosts confidence, and creates a joyful atmosphere. Children enthusiastically participated in the discussion and showed great interest in learning about the wonderful world of music.

The assembly provided a meaningful learning experience that encouraged children to appreciate music as an important part of life. It helped foster curiosity, listening skills, cultural awareness, and an understanding of how music connects people across different communities and backgrounds. The celebration concluded on a cheerful note, leaving the young learners inspired and excited about the power and beauty of music.

ACTIVITIES

International Yoga Day – Breathing with Props Activity

International Yoga Day was celebrated in a fun, engaging, and age-appropriate manner through a Breathing with Props Activity. The session was designed to introduce young children to the importance of breathing exercises and healthy habits that contribute to overall well-being. Teachers began the activity by explaining the concept of breathing and demonstrating simple inhaling and exhaling techniques. To make the experience more interactive and enjoyable, children were provided with props such as bubbles, feathers, and pinwheels. The teachers encouraged them to observe how their breath could create movement and bring the props to life.

The children enthusiastically participated by blowing bubbles, spinning colourful pinwheels, and gently moving feathers through controlled breathing. They carefully practiced taking deep breaths and releasing them slowly while observing the effects of their breath. The activity created a calm and positive atmosphere while helping children understand breathing awareness in a playful and meaningful way. It enhanced concentration, self-regulation, patience, and emotional well-being while promoting relaxation and mindfulness. Through this enjoyable experience, children gained an early introduction to yoga practices and learned the importance of maintaining healthy habits that support both physical and mental development. The celebration successfully combined learning, wellness, and fun, making International Yoga Day a memorable experience for all the young learners.

Investiture Ceremony & Academic Awards 2026–27

Ryan International School, Gandimaisamma, proudly organized the Investiture Ceremony

ACTIVITIES

and Academic Awards 2026–27, celebrating student leadership, achievement, and excellence. The event was conducted for the newly elected council members from Montessori II & III, Grade V & VI, while academic awards were presented to deserving students from Montessori I to Grade VI.

The ceremony began with the arrival of the Chief Guest, who was warmly welcomed by the school community. The Head Boy and Head Girl of Grade VI had the honour of presenting a badge to the esteemed guest. This was followed by a plantation drive conducted by the Chief Guest and the school leadership, symbolizing growth, responsibility, and care for the environment.

The dignitaries were then escorted to the MPH, where a formal guest felicitation ceremony was held. Students confidently delivered speeches in English, Hindi, and Telugu, showcasing their communication skills and cultural appreciation. A melodious welcome song by the students set a joyful tone for the event, followed by energetic and colourful dance performances.

One of the key highlights of the program was the presentation of Academic Excellence Awards to students from Montessori I to Grade VI, recognizing their hard work, dedication, and outstanding performance. The newly elected student council members were then formally invested with badges by the Chief Guest, marking the beginning of their leadership journey and responsibilities within the school.

The Chief Guest addressed the gathering with an inspiring speech, encouraging students to pursue excellence, embrace leadership, and contribute positively to society. The ceremony concluded with a disciplined and impressive March Past, where student leaders proudly carried their house flags. The House Captains also participated with great enthusiasm,

ACTIVITIES

demonstrating teamwork, confidence, and school spirit.

The event was a memorable celebration of leadership, achievement, and responsibility, inspiring students to strive for success while upholding the values and vision of Ryan International School.

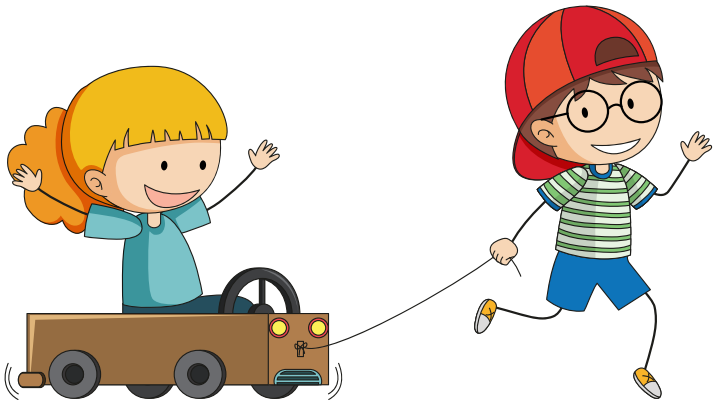

PARENT'S CORNER

Thank you for your effort, coordination for child and parents: looking forward more activities in the future.

- Mr. Abdul Kareem,
Parent of Hari and Bari - Mont II

TEACHER'S CORNER

Our teachers have closely guided and observed our little Ryanites, noting their enthusiasm, curiosity, and creativity. Children thrived in **hands-on activities, crafts, and collaborative games,** developing **confidence, communication, teamwork, and problem-solving skills.**

Teachers observed growth not only academically but also socially and emotionally, as children learned **values like respect, care, and cooperation.** Each child's individuality is nurtured, fostering a **joyful, supportive, and holistic learning environment.**

- Mr. Abelleo,
Music Teacher

I am Sathyasuma, class teacher of Mont at Ryan International School, Gandimaisamma. The school provides a **nurturing environment** that supports both teaching and learning. The management and staff are highly supportive, always encouraging us to **bring creativity into the classroom.** I truly appreciate the school's focus on fostering innovation and joyful learning. Thank you.
