

From the Principal's Desk

The month of April marked a vibrant and purposeful beginning to the academic year at Ryan International School, Kompally. The wide range of activities conducted throughout the month reflects the school's commitment to holistic education and experiential learning.

Celebrations such as World Art Day and World Earth Day provided meaningful platforms for students to express creativity, develop environmental consciousness, and strengthen their sense of responsibility. Initiatives like eco gardening, drip irrigation, coding sessions, and innovation lab activities further enriched students' learning experiences by integrating practical knowledge with classroom learning.

I commend the dedicated efforts of our faculty and the continued support of our parent community in fostering an environment that nurtures creativity, discipline, and values. We remain committed to shaping well-rounded individuals equipped with the skills and mindset required for the future.

Value of the month

Creativity

When learning is purposeful, creativity blossoms.
An essential aspect of creativity is not being afraid to fail.
You can't use up creativity. The more you use,
the more you have.

Activities

First Day of School

Students returned to school with excitement and enthusiasm. Warm welcome activities helped children feel comfortable and happy. Ice-breaking games encouraged new friendships.

The month of April at Ryan International School, Kompally was filled with creativity, enthusiasm, and meaningful learning experiences for students of Grades I to VI.

The school began the month by organizing a variety of engaging activities aimed at promoting creativity, teamwork, and self-expression among students. These activities were thoughtfully planned to celebrate the school's legacy and encourage students to showcase their talents.

World Art Day – Mont I to Grade V

Celebrating “50 Years of Creativity at Ryan.”

Students of Grade I & II expressed their love for their school through colourful drawings of “My Happy Ryan School” and school bus illustrations.

Grade III & IV worked together on a Collaborative Art Project, creating a beautiful mosaic wall that symbolized unity and creativity.

Students of Grade V & VI designed inspiring quote posters based on motivational thoughts by Dr. A. F. Pinto, reflecting positivity and determination. These activities helped students enhance their creativity, observation skills, and sense of belonging to the school.

World Earth Day

“50 Years of Ryan Leadership for a Sustainable Earth.”

Activities

Grade I & II created colourful drawings of trees, showing their love for nature.

Grades III to V participated in a creative activity using old newspapers to make tree collages, learning the importance of reuse and environmental conservation.

Grade VI students took part in a Poster Making Competition on the topic “My Earth, My Responsibility,” expressing their ideas about protecting the environment.

Through these activities, students developed awareness about sustainability, improved their communication skills, and gained confidence by presenting their work.

Overall, April was a vibrant and productive month filled with learning, creativity, and joyful participation. The school looks forward to many more such engaging activities in the coming months.

Eco Gardening

Students enthusiastically participated in planting saplings and watering plants, learning the importance of caring for nature and maintaining green spaces. They explored how plants grow and understood the need for regular care like watering and sunlight. This activity nurtured a sense of responsibility, teamwork, and respect for the environment while encouraging eco-friendly habits from a young age.

Drip Irrigation

Students explored how water can be conserved through drip irrigation and learned efficient ways of watering plants. They understood that this method supplies water directly to plant roots, helping reduce wastage. The activity encouraged awareness about water conservation and inspired children to develop responsible environmental habits.

Activities

Coding

Students were introduced to basic coding concepts through fun activities and interactive games. They explored simple sequencing and logical thinking while developing early problem-solving skills. Hands-on sessions made learning engaging and enjoyable, encouraging curiosity and confidence in using technology.

Sports

Various sports activities conducted to improve physical fitness. Students actively participated in games and team activities. Focus on teamwork, discipline, and sportsmanship.

Birthday Celebrations

Birthdays celebrated with joy in classrooms. Students shared happiness with friends and teachers. Promoted bonding and positive classroom environment.

Innovation Lab

Students explored creative ideas and simple experiments. Hands-on learning encouraged curiosity and innovation. Developed critical thinking skills.

Quality Circle Time

Students actively participated in meaningful discussions and sharing sessions during Circle Quality circle time will be conducted on every Tuesday & Thursday for all grades. Time. Topics included good manners, ground rules, healthy habits, helping at home, and talent talk. These sessions focused on building values, understanding emotions, and improving communication skills. The activities helped boost confidence, encouraged self-expression, and fostered positive relationships among peers.

Community Service Road Safety Awareness

Our Students of Grade I & II participated in a road safety awareness activity conducted during arrival time. They learned the importance of following traffic rules, including wearing helmets and seat belts. Students also created awareness by encouraging riders and drivers to follow safety measures and appreciated those who did so by giving thank-you notes. The activity promoted responsible behaviour and helped

Star of the Week

We are delighted to celebrate our “Star of the Week” achievers for April. Aadhya B - Grade II and Akshaya - Grade III were recognized for their positive attitude, good behaviour, and active participation in class. We are proud of their efforts and encourage all students to continue striving to do their best.

Students Speak

Joining my new school has been a joyful and enriching experience for me. From the very first day, I felt welcomed and comfortable as I interacted with my teachers and classmates. Their warmth and support made me feel excited and confident about beginning my new academic journey.

I thoroughly enjoyed participating in various school activities that helped me learn and grow in many ways. Celebrating World Art Day encouraged me to express my creativity and strengthened my sense of belonging towards my school. World Earth Day and Eco Gardening activities taught me the importance of protecting the environment, caring for plants, and conserving natural resources responsibly.

Coding activities enhanced my logical thinking and problem-solving skills, while sports activities helped me understand the values of teamwork, discipline, and physical fitness. Classroom birthday celebrations created a cheerful atmosphere and helped me build stronger friendships with my peers.

The Innovation Lab inspired me to explore new ideas through hands-on learning experiences and develop curiosity and critical thinking skills. Circular Quality Time sessions gave me an opportunity to express my thoughts confidently and improve my communication abilities.

My new school has provided me with a positive and inspiring learning environment. I look forward to learning new things, participating in more activities, and creating many wonderful memories in the years ahead.

**- Elena Grace. B,
Grade V**

The commencement of the new academic session in April marked a positive and enthusiastic “Back to School” experience for both students and teachers. The warm and engaging environment created during the initial days helped students transition smoothly into the learning process, fostering a sense of comfort and belonging.

Through various hands-on and interactive experiences, learners were encouraged to think innovatively, express themselves freely, and actively participate in the learning process beyond traditional classroom methods.

Quality Circle Time emerged as an effective platform for teachers to connect with students beyond academics. It provided valuable opportunities to address students’ emotional well-being, build strong teacher-student relationships, and instill important life skills such as communication, empathy, and self-awareness.

From a teacher’s perspective, these initiatives have contributed immensely to the holistic development of students. The integration of creative, social, and value-based learning has not only enhanced student engagement but also supported teachers in adopting a more student-centric and experiential approach to education.

Overall, the month of April has been enriching and fulfilling, setting a strong foundation for a productive and meaningful academic year ahead.

PARENT'S CORNER

We sincerely appreciate the efforts of Ryan International School, Kompally in ensuring a smooth and engaging start to the academic year. The thoughtfully planned activities conducted during the month of April have significantly contributed to our children's overall development.

It is encouraging to observe our children actively participating in initiatives that promote creativity, environmental awareness, and social responsibility. Programs such as eco gardening, coding, community service, and quality circle time have provided valuable learning experiences beyond the classroom.

We are grateful to the school management and teachers for their continuous dedication and for creating a positive, safe, and stimulating learning environment. We look forward to continued collaboration in supporting our children's growth and success.

- Mr. Anil Kumar. B,

Parent of Elena Grace. B - Grade V
