

From the Principal's Desk

"Joy is the simplest form of gratitude."

—Karl Barth

At school, we strive not only for academic excellence but also for the holistic development of every child. One of the most meaningful values we nurture is joy—a quality that enriches learning, strengthens relationships, and builds resilience.

Joy is more than a moment of happiness. It is a deep sense of gratitude, purpose, and appreciation that enables children to approach life with optimism and confidence. A joyful child is more curious, engaged, creative, and willing to embrace new challenges. Joy also fosters kindness, empathy, and meaningful connections with others.

Children learn the value of joy by observing the adults around them. Simple family moments—sharing a meal, celebrating small achievements, expressing gratitude, spending time together, or offering encouragement during difficult times—teach them that joy is found not only in success but also in love, service, and togetherness.

As parents and educators, we share the responsibility of creating environments where children feel safe, valued, and inspired. By encouraging gratitude, celebrating effort, nurturing friendships, and finding delight in everyday experiences, we help our children develop a positive outlook that will serve them throughout their lives.

This month, we encouraged our children to discover joy in learning, in helping others, and in appreciating the many blessings that surround them. Together, we can raise confident, compassionate, and joyful individuals who bring light and positivity wherever they go.

Quote of the month

***“There are those who
give with joy, and that
joy is their reward.”***

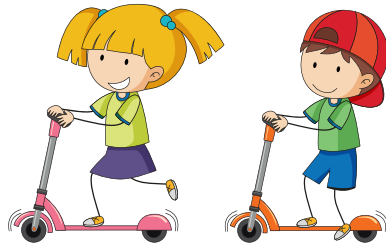

ARTICLE FROM COORDINATOR'S DESK

As we bid farewell to the month of **Joy**, we reflect on the countless moments that filled our campus with smiles, enthusiasm, and meaningful connections. Through classroom learning, co-curricular activities, celebrations, and simple acts of kindness, our students discovered that true joy lies not just in achievements but in learning, sharing, and growing together.

It was heartening to witness our young learners embrace every opportunity with positivity and gratitude, making our school a place where happiness became a shared experience. As we move into a new month and a new theme, let us carry forward the spirit of joy in our thoughts, words, and actions, remembering that a joyful heart inspires a lifelong love for learning.

ACADEMIC ACTIVITIES

Concept of Big and Small

Our Mont I children explored the concept of big and small through hands-on activities using book, classroom chairs, and TLMs. Learning become fun as they observed and compared objects while building early thinking skills.

Shapes Activity

Mont I: Our Mont I children joyfully participated in a shapes Matching activity where they learned to identify and match basic shapes like Circle, Triangle, Square and Rectangle. The children carefully observed each shape and matched them correctly. This fun activity helped in improve Shape recognition, Concentration, Hand Eye coordination while making learning enjoyable and interactive.

Mont II: The student of Mont II participated in a shapes pasting activity by identifying different 2D shapes and pasting them in the correct places to complete the picture. He demonstrated good attention and focus while selecting the appropriate shapes and applying glue carefully. The student followed instructions well and completed the task independently with minimal support.

This activity helped develop shape recognition, fine motor skills, hand-eye coordination, and spatial awareness. It also encouraged creativity, concentration, and the ability to follow directions.

Magic With Colours

Our Mont III students explored the wonderful world of colours through the fun activity

ACADEMIC ACTIVITIES

"Magic with Colours." They identified and named different colours while creating a vibrant colour chart. This hands-on activity helped enhance their colour recognition, observation skills, vocabulary, and fine motor development. The children participated with great enthusiasm, making learning both joyful and memorable. It was truly magical to watch them discover the beauty of colours through creativity and play!

ACTIVITIES

Father's Day

To celebrate Father's Day, our young learners participated in a delightful **Tie-Making Activity**, creating colourful paper ties filled with love, creativity, and heartfelt messages for their fathers and father figures.

ACTIVITIES

With great enthusiasm, the children decorated their ties using vibrant colours, drawings, stickers, and thoughtful words of appreciation. As they worked, they shared stories about their fathers and expressed what makes them feel loved and cared for. This meaningful activity not only encouraged creativity and fine motor skills but also helped the children reflect on the importance of gratitude, love, and family bonds.

Each handmade tie was a unique expression of a child's affection—a small yet meaningful keepsake that carried a big message: **"Thank you for your love, guidance, and support."**

World Music Day

To celebrate **World Music Day**, our students enthusiastically participated in an **Instrument Drawing Activity**, exploring the wonderful world of music through art and imagination.

With crayons, pencils, and vibrant colours, the children drew a variety of musical instruments, including guitars, drums, violins, flutes, and many more. As they created their artwork, they learned about the unique sounds, shapes, and importance of different instruments in making music that brings people together across cultures and languages.

The activity encouraged creativity, observation, and artistic expression while fostering an appreciation for the universal language of music. It also provided an opportunity for students to discover how music inspires emotions, builds connections, and adds joy to our everyday lives.

The colourful drawings showcased not only the children's artistic talents but also their growing

ACTIVITIES

curiosity and love for music.

Through this engaging experience, our young learners celebrated the harmony, creativity, and happiness that music brings to the world.

"Where words fail, music speaks."

— Hans Christian Andersen

Yoga Day Celebrations

Our school celebrated International Yoga Day with a fun and engaging Pinwheel and Bubble Activity, helping our young learners understand the importance of mindful breathing in an enjoyable way.

The children used colourful pinwheels and bubbles to practise slow, deep breaths. As they gently blew the pinwheels and watched them spin, and carefully created bubbles with controlled breathing, they experienced how calm and steady breaths can help relax the body and mind. The activity introduced them to simple breathing techniques that are an important part of yoga and overall well-being.

Filled with smiles and excitement, the children enthusiastically participated while improving their breath control, concentration, and lung capacity. Beyond the fun, the activity reinforced the value of mindfulness, self-awareness, and healthy habits from an early age.

The celebration reminded our students that yoga is not only about physical postures but also about developing inner peace, balance, and emotional well-being. It was a joyful and meaningful experience that encouraged every child to embrace a healthy lifestyle—one mindful breath at a time.

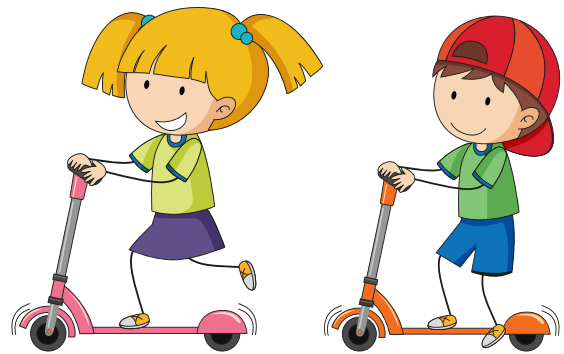

"Yoga is the journey of the self, through the self, to the self." — Krishna

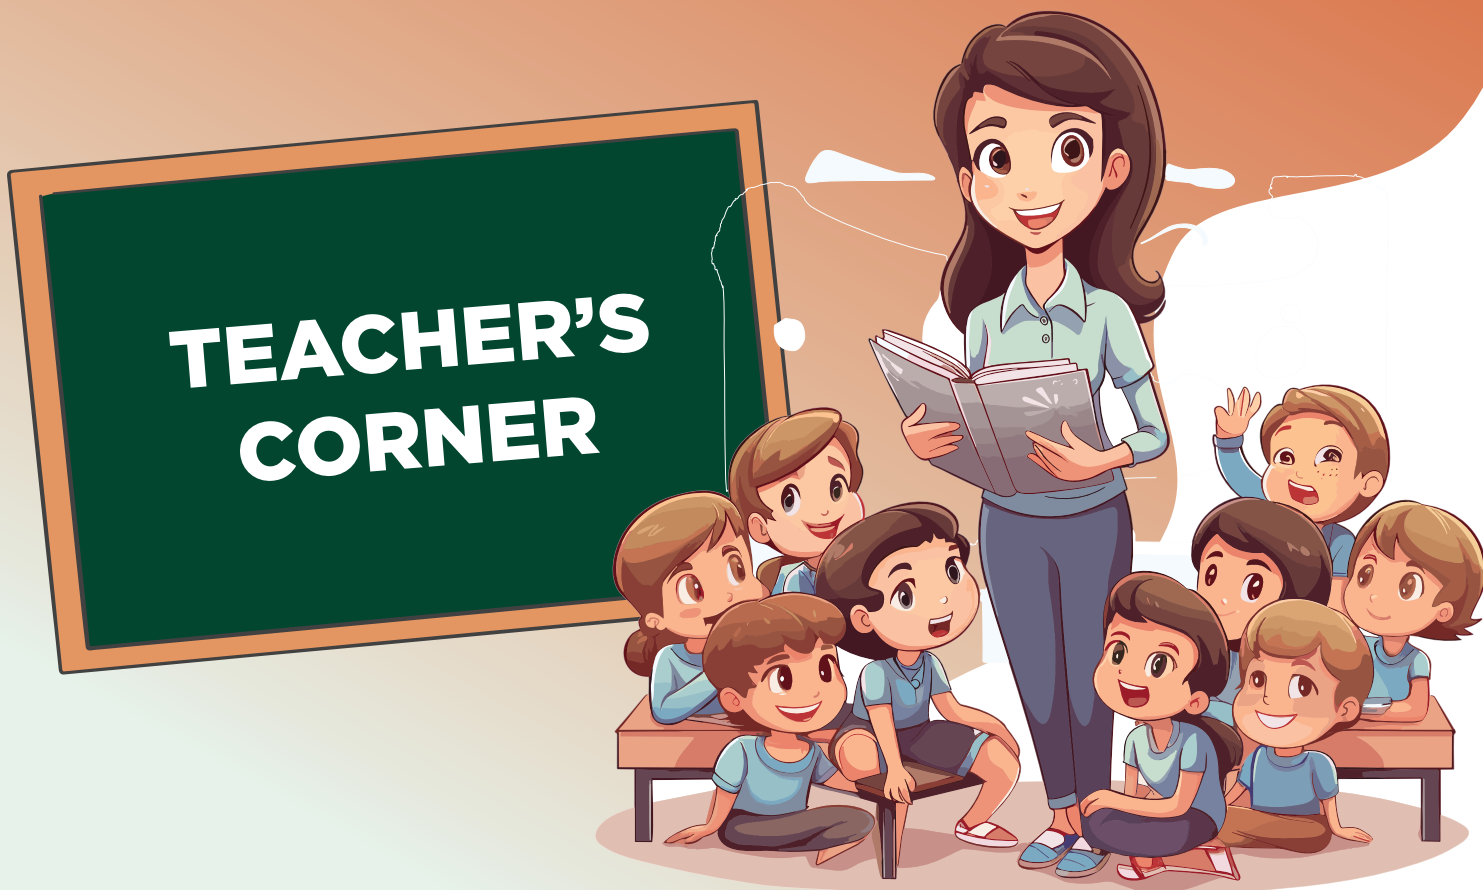

INNOVATION

Creative Activity Photo Frame

Making Students explored creativity and design through a fun “Photo Frame Making” activity. They learned how simple materials can be transformed into a useful and decorative product. Students designed the frame structure and decorated it using different creative elements. They explored concepts of shape, measurement, balance, and arrangement. The activity encouraged imagination and individual creative expression. Students developed fine motor skills, patience, and attention to detail. A fun hands-on activity that combined creativity with practical learning!

Working at Ryan International School, Kompally, is an incredibly fulfilling journey that brings joy to my heart every single day. The vibrant energy of pre primary makes it a genuinely happy place to work, learn, and grow alongside my colleagues. Seeing my little students rush through the doors with big smiles and eager minds is the ultimate reward for a teacher. Our management provides a supportive and empowering environment that allows me to nurture each child's unique potential using modern, play-based tools. The collaborative spirit among the staff and the warm partnership with parents make our school feel like a close-knit family. I feel immensely proud to guide these young learners as they take their very first steps toward a bright, successful future.
