Please note the following points which are extremely important to help the children settle fast at school and also strengthen the parent-school communications:

- 1. Important channels of communication:** Communicating with the school regularly will help you keep abreast on what is happening at school. If you have any question/doubt/clarification, please mail/call our Support team who is equipped to resolve queries within 48 hours.

Please ensure that you inform the school immediately on any change in contact details, residence address, mail id etc. Data submitted to the school is not only important, it also moves across various functions of the school (admissions team, transport team, school nurse etc.). It is important that the school has all correct details of the parent and child.
